About

Professional services provided at very reasonable prices. The site that was created was beyond our expectations in terms of design and user-friendliness. It helped us generate credibility for potential customers as well as enabling us to display additional services and work performed at previous job sites. In turn, this gave our current clients the confidence to choose us as contractors on other services we provide. Overall a fantastic experience and will undoubtedly be our sole provider of web design in the future.

On behalf of the International Business and Technology Program at Gordon Graydon Memorial Secondary School, I would like to thank Rustom for his numerous contributions that enhanced and supported the program for the past year. Rustom has provided consistent high-calibre performance and enabled us to rely on your unfailing technical support and expertise.

Meeta Joseph - Program Coordinator,
International Business and Technology
Program

Rustom's intelligence takes him a long way and coupled with his commitment to excellence he is able to adapt very quickly constantly keeping the overall goal in mind. He is not the kind of person who settles for "just enough". He is intent on completing his work in the best possible way. He is passionate about what he does - a trait he has developed from his personal life. His drive knows no bounds. His dedication is exemplary.

Rustom was able to capture my vision in a creative yet practical way; he is reliable and professional in his approach. It is both an honour and pleasure to know this young man and I have no doubt that with this type of drive and dedication; that Rustom will go a very long way and succeed in whatever he chooses.
